IT MANAGEMENT AUGMENTATION SERVICES

CREATING MANAGEMENT CAPACITY
AND EXPERTISE WHEN YOU NEED IT
MOST. OUR LEADERS BECOME PART
OF YOUR ORGANISATION,
SUPPORTING AND STRENGTHENING
YOUR MANAGEMENT TEAM
THROUGH CHALLENGING TIMES

Bio Management Augmentation provides additional management capacity and expertise when clients need it. Whether you need to free up existing capacity to focus on new initiatives, or for a period of time leverage a particular level of management expertise, or simply to fill an interim position until you make a permanent appointment, Bio management augmentation services can help.

Bio's service augmentation model can provide the management capacity you need. As a service augmentation partner our services become a natural extension to your in-house teams. It's only natural then that Bio can extend your management reach, either by managing across the combined client and Bio combined team, or to manage an existing function, perhaps as a method to create capacity and insight to change and improve performance.

Bio's management team have many years of experience and an impressive track record in anticipating and managing IT organisational change, taking large service provider and enterprise clients and their teams through generations of industry evolution.

WHAT ARE MANAGEMENT AUGMENTATION SERVICES?

Bio Management Augmentation Services leverage Bio's expertise to increase our clients management capacity. Deployments are typically highly customised to the needs of each client, but include the following type of engagements:

- Interim in lieu of a permanent position - in which Bio provides temporary management cover until the client is able to make a permanent appointment
- Transitional Management - in which Bio provides additional management skills or experience that will only be required for a transient period of time
- Bio transformation Interim management - in which through other Bio services may have agreed a transformation roadmap and it is more efficient that Bio manages some of the people involved in the activity for a period of time
- Interim cover during Internal reassignment - in which Bio takes day to day management of a particular area allowing the client to divert premium management resource to an alternate focus

WHEN DO YOU NEED MANAGEMENT AUGMENTATION SERVICES?

- When you need to divert a manager to a different activity for a period of time
- When consultancy doesn't give you the accountability you really need
- When you have an important vacancy that will take time to fill
- When you are driving transformational change and a different face, style, competency or approach is better suited to effect change

WHAT ARE THE BENEFITS OF MANAGEMENT AUGMENTATION?

- Accelerate the outcomes and benefits of change
- Minimise the risks of organisation and people change
- Create management capacity to manage change
- Maintain business as usual as you effect change

Bio is an independent provider of IT professional, operational and consultancy services, spanning the lifecycle of IT.

Through our innovative augmentation services, we help you enhance the capability and capacity of your IT organisation.
